thank you, for this amazing game, Michael \u2665. A nice step in the right direction. I'm having a great time playing it so far. Improved graphics, physics, and AI from previous generations (I've owned them all since motogp15). I'm happy with my purchase.. everyone keeps saying pubg h1z1. I say a worse version of ring of elysium. **Gameplay**
Gameplay is very simplistic with almost no micro-management. It plays similar to game called fleetstar 5 which could be considered an upgraded version except that it is from a different company.

compatibility

The game is completely compatible with windows 7 and windows 10.

bugs

None

conclusion

If you like an extremely simplistic empire building games that have no micro-management then you might be interested in this game.. I truly love it when an indie developer makes a GREAT horror game. Stairs blew me away. I didn't know what to expect. The trailers and pictures on steam didn't reveal much for the game so I was practically walking into this game blind and I walked out with a FANTASTIC experience. The real reason I purchased the game was because of the reviews. It's hard to say if this lack of advertising for the game worked in it's favor or not, but it did truly make me feel like I found a diamond in the rough.

The graphics are beautiful and feel realistically believable. The gameplay is simple, some would call it a walking simulator, but with the camera as your one tool it becomes more than that. I've seen some games where the camera works really well and when it doesn't work so well. Stairs not only uses its camera dynamic very well, but the ending sequence brought something fresh to the table that literally gave me goose bumps, accelerated my heart beat, and made me incredibly fearful of what laid in the dark.

SPOILERS AHEAD

For those of you who want to know what that end sequence was; The game got rid of all means of illumination at the end, flashlight and night vision are gone and the only way to progress in PITCH BLACK was to use the flash on your camera. Meaning, you would walk 10 feet, take a picture, the flash would light up the next 10 feet, and you would rinse and repeat. This was incredible to me!! I've only EVER seen this in movies and it was exciting to see someone take advantage of it in a video game.

END OF SPOILERS

Sadly I would say that this game, as amazing as it was, felt too short!! Towards the end of the third level there was a lot of build up, you're thinking there's going to be a big jump scare at the end or a huge reveal in the story, but then... it just ends... just like that... I groaned out in frustration, because the joy I was getting from this game finally came to a close, but there was no closure, no sense of victory, it just all stopped... It felt like being on a rollercoaster and it comes to a sudden halt half way through, like in the middle of a loop... and like being stopped half way through a roller coaster, I felt like I'm missing another half to this game and it's story.

But that's it, that's my only negative for this. I had fun the entire way through. There were plenty of scares to get my money's worth and the atmosphere and it's lighting are some of the best I have experienced in a horror game. If you're a horror game

enthusiast like me then you need to add this game to your collection.. If you just spent a ♥♥♥♥load of money on a gaming PC with a dope graphics card, Chip's Challenge is the must-have game for ironic jokes. The gameplay itself is a simple blend of puzzle and adventure. Collect the items needed to make your way through each obstacle the levels throw at you and make your way to the next level. You don't have enough money for any other games anyway. You just spent a ♥♥♥♥load on that sick rig.. Fun racing game. Optimized game engine runs great on older hardware, graphics are great, sound is excellent, sense of speed and water physics are convincing. Can't argue with the price especially on sale.. The game really simulates the hard life of a mother. You learn how to feed your baby and how to clean him.

The game is pretty hard, each level involve more skills you need to have, and more staff you need to do.

There's levels where you need to make food for your baby while you seek, so you need to make him food fast because he is crying and you need to go to the bathroom.

Really realistic game, it's really simulates the hard life of a mother. Great game !!!

Masterpiece 5/7. I bought the deluxe content and I'm not sure if I got the fur or not. I don't think I did. But I could care less, I mean, even if I might've not gotten the fur I can actually enjoy the game at least.. Fun so far it's not perfect but it's good. Differe't from the original games.. No risk\high reward for consumers considering that the game is free. If you love Halo style combat, then you'll appreciate the feel of the game. Gun play is fantastic, portal implementation is well thought out. Designated walls for casting portals helps mitigate would could potentially be a messy feature. Love the Halo elements they've adopted all around. Considering the fact that this is a launch day review, I'd say the game has been delivered in exceptional fashion. As long as the Dev's continue to improve this title, I can see it continually rising in popularity!

8.5\10. I would love to play the game. The setting is really cool. Sadly the game doesnt work with my steam controller on my system, so i had to refund... on top i had kind of stuttering and the controls are a bit delayed sometimes... If there would be a fix i would buy again!!!!. A bad Clash of Clans copy on steam♥♥♥♥♥game. Tookis and the booty biker boys made my heart soar. A psychedelic romp where you make fast friends. The developer is a real kind dude too, and I think that comes through in the game. I want a monster garden sequel! Where you can tend to your little homies day-in and day-out like Animal Crossing.. Thanks so much for this Amazing Collection Soundtrack!

We love Great Games!

We love Great Music!

We Love You So Much Developers, Musicians and Publishers, Thanks a lot for these Masterpieces! <3 ^^

Best Regards from Colombia!. I'm having a lot of fun with this game, the puzzles are challenging and you have a lot of levels until you finish the game, in the meantime if you get bored you can even create your own levels. I was a fan of Lemmings and this game has some structure similarities to it. You can easily find this game with a great deal, highly recommend it!. PLEASE NOTE: MY RECOMMENDATION COMES WITH A HUGE ASTERISK!

* This game is actually terrible!

However, it's a kind of terrible that I cannot help but find hilarious, it's the kind of terrible that I cannot help but laugh my damn\u2665\u2665\u2665\u2665\u2665\u2665off at. The plane flying minigame alone is so damn funny, due to it's utterly broken control scheme, that it's a barrel of goddamn laughs.

If you're looking for a serious experience, battlefield 1942 or the like, stay away from this game as it's probably one of the worst FPS games I've played. However, I have way more fun with this than I do C.O.D and in comparison to other \u2665\u2665\u2665\u2665\u2665\u2665 FPS games, it's better than some cynical\u2665\u2665\u2665\u2665\u2665\u2665piece of trash like Stealth Force: The War on Terror. The game tries to have a lot of variety and you're bound to find something so inept that you'll burst out laughing at it.

A complete and utter abomination... but a hilarious one at that.
